

Guitar Chord Boxes/Pictures

A Chord is when you play more than one note at a time.

Chord Boxes are pictures to show you how to position your fingers for certain chords.

They look like little pictures of the first three frets of your guitar!

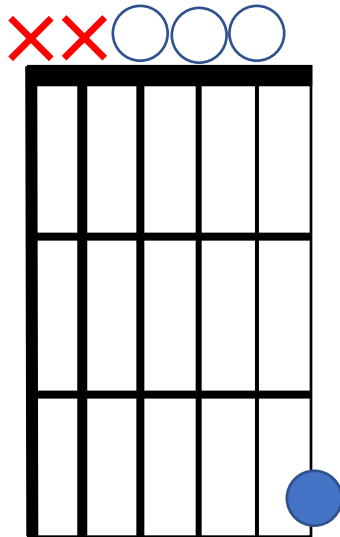

First Four Chords

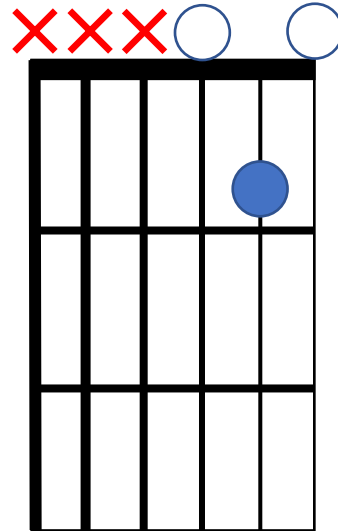

The **blue dots** are your **fingers**.

The **white dots** are strings played with **no fingers** on them.

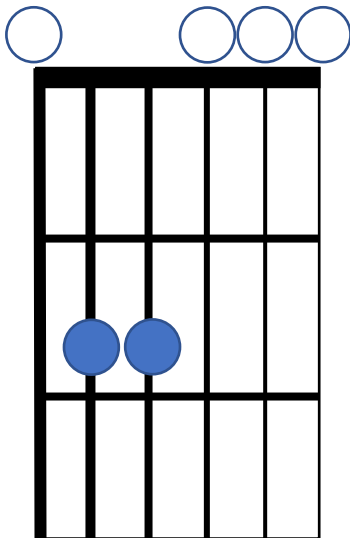

The **red crosses** mean that you **don't play** those strings at all.
